

Our Mission

Systems: Women in EECS seeks to recruit, retain, and mentor women and non-binary in Computer Science, Computer Engineering, and Electrical Engineering at the University of Tennessee, Knoxville.

Our Need

Systems is one of the most active student organizations in the College of Engineering, and sustaining its momentum requires new funding each year. Systems has several year-round programs designed specifically for executing Systems' mission.

Your donation will go directly toward funding one or more of these programs, which include:

Professional Development Program

- We award scholarships that fund members to attend professional conferences for women in technology. In the past, we have attended the Grace Hopper Conference (GHC) and Knoxville Women in Technology (WiT).

Mentorship Program

- We create mentorship pairs according to their interest and sponsor regular mentorship activities to encourage people to connect.

Workshop Series

- We host workshops on common skills necessary for success in industry and/or academia. Previous topics have included GitHub and VS Code Tutorials, New Programming Languages, and Careers in EECS.

Outreach Program

- We sponsor events at local grade schools to encourage female interest in engineering, especially in EECS.

Our Sponsorship Packages

Benefits	Gold (\$1,000+)	Silver (\$500+)	Bronze (\$100+)
● Logo on Website (1 Calendar Year after donation)	●	●	●
● Booth at EECS Mini Internship/Research Fair	●	●	●
